

S.E.W. North Filtration A/S manufactures filter cartridges for filter systems. Our filters clean the air from dust particles and contribute to a clean and healthy environment in companies all over the world. We are a 100% Danish-owned company. We are known for delivering high quality on time and we adapt our products to our customers' wishes and needs.

Our motto is 'development'. Our vision is to become part of the world's elite of innovative filter manufacturers. of innovative filter manufacturers and to produce with respect for the climate. That's why we use robots in our production. We are working towards a fully digitalized production process based on LEAN principles within a few years. We value high quality, effective collaboration, and a good and safe working environment. This means that all employees depend on each other's commitment and efforts.

We emphasize a good induction into the workplace and your new role. It is important to us that you feel welcome and enjoy your work and your colleagues and managers. Your desire to come to work and contribute to the shared quality and good atmosphere is something we prioritize.

As a new employee, you will follow an induction program to ensure that you are thoroughly trained so that you can quickly start to tasks on your own. One of your colleagues will be responsible for your training. Together you share the responsibility of ensuring that you are trained in a way that suits your learning style.

At S.E.W. we are one big family. We do something special to strengthen social cohesion and offer various employee benefits for our employees. At lunchtime we meet at the buffet and eat together. During the day, the canteen provides fruit, coffee and tea. On Friday mornings we have coffee, tea and a big breakfast. We end Friday and the week with with a chat and a soft drink.

If you can see yourself working with us, we look forward to hearing from you.

S.E.W. North Filtration A/S welcomes you to our new 8,000 m2 factory at Europavej 11 in
